PORTFOLIO https://zerosnake00.github.io/

PROFILE

BSc (Hons) Multimedia graduate with **Second Class Honours (Upper Division)**. Builds interactive experiences in Unreal Engine 5, edits promotional and narrative video, and creates visual content for digital audiences. Combines hands-on game and multimedia projects with professional experience administering social-media pages, responding to enquiries and planning content.

CORE SKILLS

Game development: Unreal Engine 5, C++, level layout, mission flow, encounter pacing, VRoid Studio, VRM4U.

Video and design: Premiere Pro, After Effects, Photoshop, Illustrator; video pacing, music, titles, posters and layouts.

Social media: Facebook and Instagram administration, customer enquiries, content planning, engagement review.

Web and research: HTML, CSS, JavaScript, Git, GitHub Pages, SPSS, audience research; AI-assisted multimedia workflows.

SELECTED PROJECTS

Lavender Marriage | 3D visual novel | Final-year project, 2026

- Built a 3D visual novel in Unreal Engine 5 with C++; created five characters in VRoid Studio and integrated them through VRM4U.
- Combined AI-assisted illustrated scenes, character voices and a trailer that plays during first-launch shader compilation.

Post-Production | Video editing | Portfolio collection

- Edited promotional work including Plan B Coffeehouse, Singha Yoga Retreat, GachaSL and Calm Your Interview Nerves, using Premiere Pro for cutting, pacing, music and titles.
- Portfolio also includes a short-film edit, a news edit and an experimental advertisement combining AI-generated clips.

Team Game Project | Level designer | University coursework, 2025

- Designed playable levels, mission flow, encounter pacing and environmental composition; collaborated with programmers and artists to bring layouts into an in-engine build.

GamePlayMate | Web design and development | Solo project

- Built a promotional gaming-services website in HTML, CSS and JavaScript, including its visual identity, responsive layouts, video players and expandable content.

Gamers vs Non-Gamers | Audience research | BSc dissertation

- Used SPSS to compare how gaming and non-gaming audiences interpret character design. Passed the viva without revisions and received a recommendation to publish.

PROFESSIONAL EXPERIENCE

Assistant Social Media Manager | Enya Language Center | Jul - Oct 2026

- Administered Facebook and Instagram pages for a language institute and responded to customer messages and course enquiries across both platforms.
- Reviewed low engagement and proposed a monthly content plan with educational posts and short Reels; supported Moodle LMS administration and marked online examinations.
